

HOW TO UPDATE PKNET

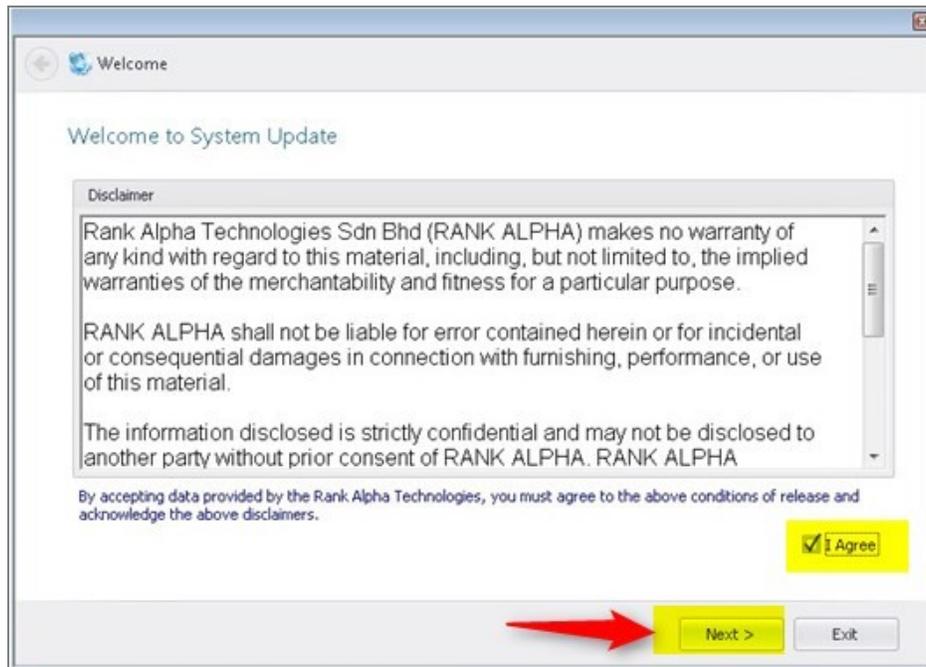

- 1) Go to **Home** Tab
- 2) Click System **Live Update**

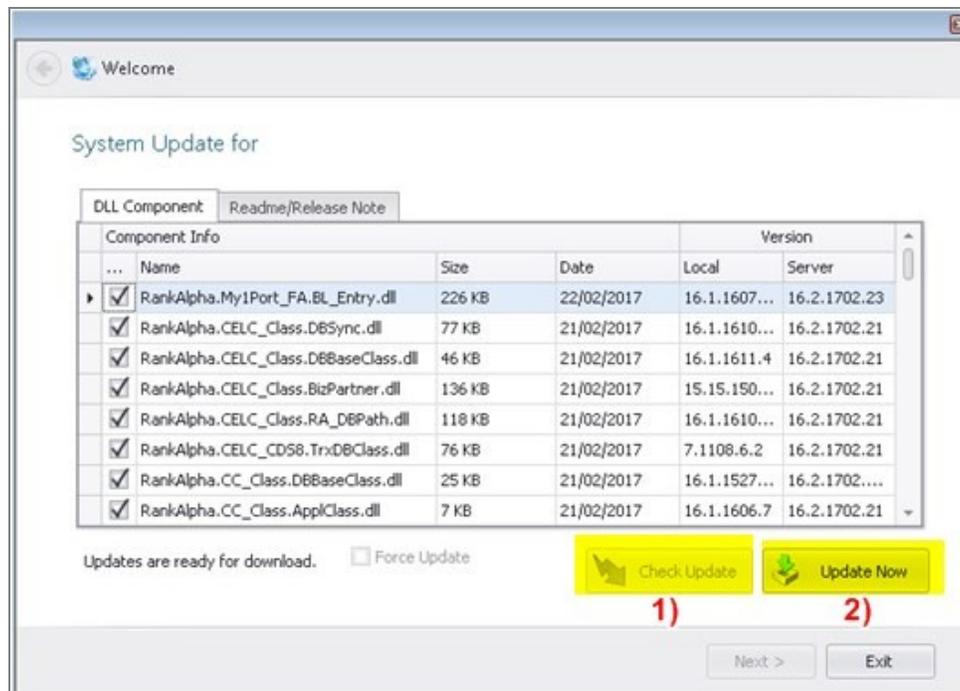

- 3) A Box will popup. Just Click **OK**. (System will be auto close and Update Manager Box will come out)

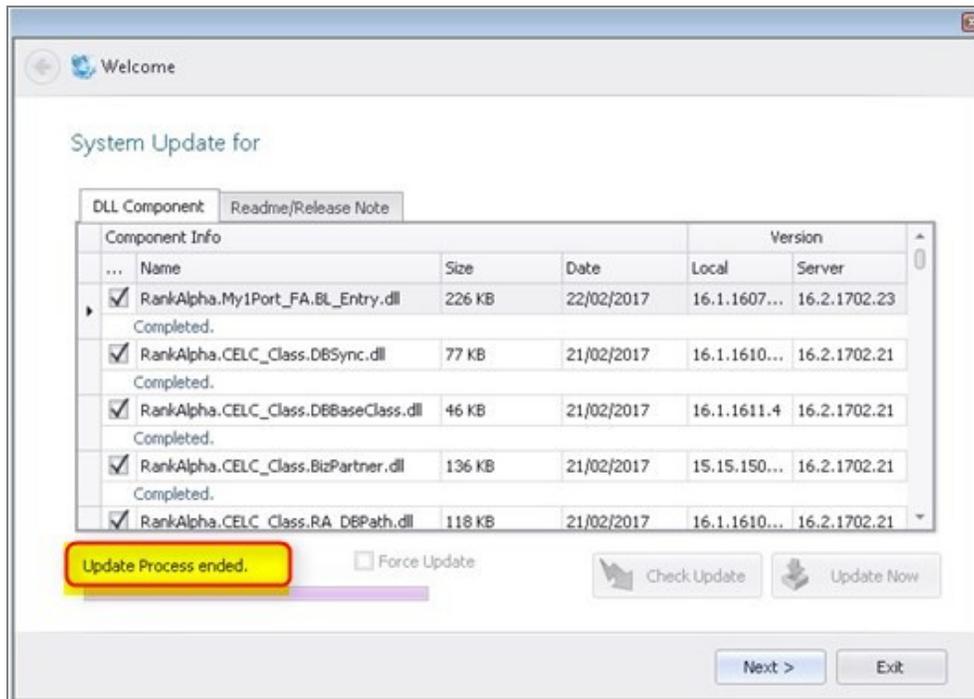

4) Tick 'I Agree' and click **Next** twice

5) Click '**Check Update**' (list of latest patch will be shown in the box) and then click '**Update Now**'

6) Live Update will begin to update your system. Wait until it stated **Update Process ended.**

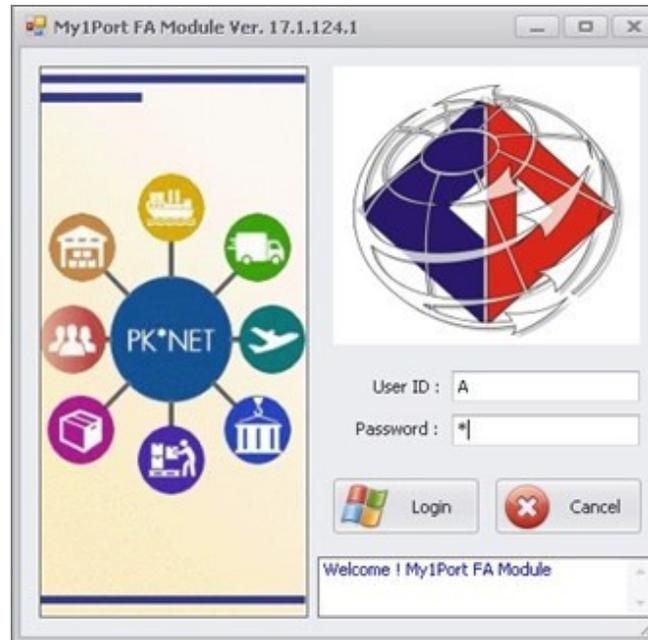

7) Click **Next** and then click **Finish**

8) Your system has been successfully updated

SETTING UP SYSTEM AFTER UPDATE

- 1) Open your PKNet System. Enter User ID = A / Password = A to login

- You might get popup like below after you into system, read the box and click **OK**

2) Click drop **down arrow on** (your top right system) and click **My1Port Login**

- A box will popup. Enter your My1port Login details (Acc No / User ID / Password). Click **Login** and then just click **Exit**

PK Net Account Info

ROC No : 269716T PKNet OnlineID : MYPKGRAFA4

Company Name : RANK ALPHA TECHNOLOGIES SDN BHD

License Serial No : PK*NET-FA-BF9999-0004

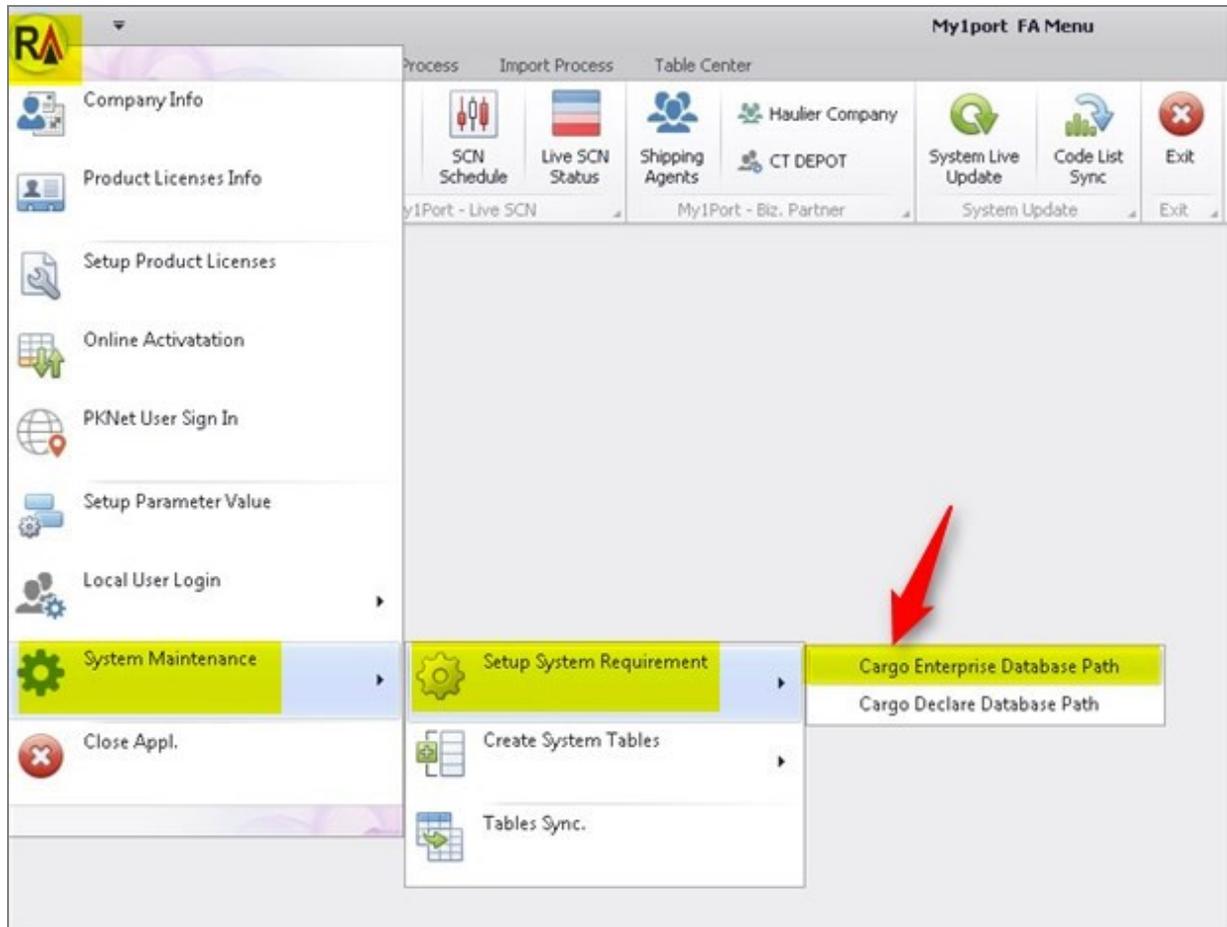

Account No : MYPKGRAFA4

User ID : MYPKGRAFA4 Password : *****

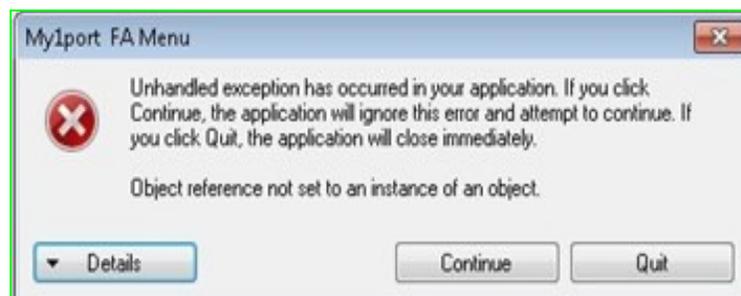

Login

Exit
